HRC 390 Touchscreen Controller

Discontinued Products · https://husqvarna-water.com/knowledgebase/hrc-390-touchscreen-controller/

The HRC 390 irrigation controller with a touch screen programming interface was versatile, intuitive, and loaded with advanced features. Property owners instantly recognized the upgrade as HRC 390’s large, easy-to-read, blue backlit touch screen LCD illuminated its immediate surroundings. Contractors appreciated the ease of programming in five optional languages, along with the HRC 390’s scheduling versatility. Best of all the HRC 390 required no additional wiring to communicate with either its remote rain/freeze sensor or handheld remote control.
